

JOURNAL of PALEONTOLOGY

VOL 90 | NO 2 | 2016

- 183 Sara J. Mason and Guy M. Narbonne**
Two new Ediacaran small fronds from Mistaken Point, Newfoundland
- 195 John A. Harper**
Redescriptions of some Lower Devonian gastropods from Tennessee currently considered to be platyceratids
- 211 Jose Maria Pons, Enric Vicens, and Reinhard Schmidt-Effing**
Campanian rudists (Hippuritida, Bivalvia) from Costa Rica (Central America)
- 239 Jeffrey R. Thompson and William I. Ausich**
Facies distribution and taphonomy of echinoids from the Fort Payne Formation (late Osagean, early Viséan, Mississippian) of Kentucky
- 250 Davinia Díez-Canseco, Luis A. Buatois, M. Gabriela Mángano, Margarita Díaz-Molina, and M. Isabel Benito**
Ichnofauna from coastal meandering channel systems (Upper Cretaceous Tremp Formation, South-Central Pyrenees, Spain): delineating the fluvial-tidal transition
- 269 Patrick R. Getty, Thomas D. McCarthy, Shannon Hsieh, and Andrew M. Bush**
A new reconstruction of continental *Treptichnus* based on exceptionally preserved material from the Jurassic of Massachusetts
- 279 Justin Tweet, Karen Chin, and A. A. Ekdale**
Trace fossils of possible parasites inside the gut contents of a hadrosaurid dinosaur, Upper Cretaceous Judith River Formation, Montana
- 288 Juan Liu, Mark V.H. Wilson, and Alison M. Murray**
A new catostomid fish (Ostariophysi, Cypriniformes) from the Eocene Kishenehn Formation and remarks on the North American species of †*Amyzon* Cope, 1872
- 305 Tyler R. Lyson, Walter G. Joyce, Spencer G. Lucas, and Robert M. Sullivan**
A new baenid turtle from the early Paleocene (Torrejonian) of New Mexico and a species-level phylogenetic analysis of Baenidae
- 317 Alexander K. Hastings, Moritz Reisser, and Torsten M. Scheyer**
Character evolution and the origin of Caimaninae (Crocodylia) in the New World Tropics: new evidence from the Miocene of Panama and Venezuela
- 333 Thomas M. Lehman, Steven L. Wick, and Jonathan R. Wagner**
Hadrosaurian dinosaurs from the Maastrichtian Javelina Formation, Big Bend National Park, Texas
- 357 Gerald Mayr**
Osteology and phylogenetic affinities of the middle Eocene North American *Bathornis grillator*—one of the best represented, albeit least known Paleogene cariamiform birds (seriemas and allies)
- 375 Morgan Churchill and Robert W. Boessenecker**
Taxonomy and biogeography of the Pleistocene New Zealand sea lion *Neophoca palatina* (Carnivora: Otariidae)
